Victoria Avenue Bike Path

California

The Victoria Avenue Bike Path parallels a scenic parkway dotted with palm trees that was built in 1892 and is listed on the National Register of Historic Places. The northeastern end of the trail offers a peaceful ride through charming Riverside neighborhoods. As the trail continues southwest, the views become more rural with stands of orange groves along the way.

The Victoria Avenue Bike Path parallels a scenic parkway dotted with palm trees that was built in 1892 and is listed on the National Register of Historic Places. The northeastern end of the trail offers a peaceful ride through charming Riverside neighborhoods. As the trail continues southwest, the views become more rural with stands of orange groves along the way.

The route also offers a safe and convenient way for students to travel as the pathway is in close proximity to Gage Middle School, Washington Elementary School and Harrison Elementary School. However, a short gap interrupts the otherwise continuous trail from Harrison Street to Tyler Street, so cyclists will need to safely merge into the parallel roadway.

Victoria Avenue Bike Path

California

States: California

Counties: Riverside

Length: 6 miles
