Much of Redmond's Dry Canyon Trail runs through a gentle valley, which becomes a deep coulee as the trail traverses north. The flat, paved pathway is lined with groves of juniper trees and tall grasses as it winds through picturesque rock cliffs. An interesting feature of the trail is its passage under the Maple Avenue Bridge with its wide, graceful arches. Along the way, a string of city parks provide ample rest stops, parking and access points.

Dry Canyon Trail

Oregon

States: Oregon

Counties: Deschutes

Length: 4miles

Trail end points: Water Pollution Control
Facility at NW Pershall Way/NW 19th St. to SW
Reindeer Ave. and SW 19th St.
