Skyline Trail (CO)

Colorado

The Skyline Trail offers rolling hill climbs through the community of Briargate in northeastern Colorado Springs. It begins at

The Skyline Trail offers rolling hill climbs through the community of Briargate in northeastern Colorado Springs. It begins at Research Parkway and travels south until it ends at an electric substation just after Briargate Boulevard. From there, you can connect to the [Woodmen Trail](#) to travel more than 2 miles east.

Mid-trail, you can enter Rampart Park, which offers a picnic shelter, restrooms and athletic fields. One day, the Skyline Trail will also stretch farther north to the [LaForet Trail](#), which offers access to the United States Air Force Academy, [New Santa Fe Regional Trail](#) and community parks.
