The picturesque Oxford Trail winds along Turkey Creek through the heart of the charming southern town of Oxford. The wooded pathway runs behind the Oxford College campus and offers a kiosk with information about the native plants and animals that you may see. Along the way, benches provide spots to rest and a trail spur will take you to Old Church, where a large deck beneath a tree canopy offers a place to picnic. The church, built in 1841, is a historic landmark and has two front doors where men and women once entered separately.
