The Straight River Trail forms a backwards L as it runs north-south through Faribault and then curves west. The paved trail begins at

The Straight River Trail forms a backwards L as it runs north-south through Faribault and then curves west. The paved trail begins at the Cannon River Reservoir, then travels through woodlands in Two Rivers Park before heading south along the western bank of the Straight River. On the way, it passes through Trail's Edge Park and Straight River Park before ending at Spring Greenway Park.

A connection to the [River Bend Trail](#) allows access to the River Bend Nature Center. Trail spurs provide access to residential neighborhoods, businesses and Faribault Middle School.

Straight River Trail
