The Kishwaukee River Recreation Path runs for 2.5 miles in Cherry Valley on the outskirts of Rockford in northern Illinois. The well-maintained, asphalt trail connects the Kishwaukee River Forest Preserve with Blackhawk Springs Forest Preserve. The trail crosses the Kishwaukee River twice as it drops to the river's edge and climbs up out of the valley. It offers pleasant scenery and is almost entirely sheltered from commercial or residential development.

In addition to the paved bike path, there are also hiking trails (for walkers only) available throughout Blackhawk Springs Forest Preserve, which spans more than 600 acres and is heavily wooded.
