Niver Creek Trail

Colorado

Niver Creek Trail

Colorado

The Niver Creek Trail winds through Thornton, a northern suburb of Denver, connecting parks, riparian areas and open space

The Niver Creek Trail winds through Thornton, a northern suburb of Denver, connecting parks, riparian areas and open space inhabited by prairie dogs, coyotes, numerous bird species, and other wildlife. Along the way, you can access Pecos Park, Huron Green Park and the Niver Creek Open Space.

From the trail's eastern terminus, you can easily continue your journey on the [Niver Canal Trail](#). Make the connection on the east side of Washington Street, only a few blocks away. That trail travels about 2 miles along the Coronado Parkway down to the South Platte River, where you can pick up the 28-mile [Platte River Trail](#).

Niver Creek Trail

Colorado
