Clarksville Heritage Trail

Indiana

The Clarksville Heritage Trail links the residential heart of Clarksville, Indiana, with its growing trail system and two local

off Browns Station Way/Old Indiana 62 and also runs south along the Ohio River to the Falls of the Ohio Interpretive Center.

The Clarksville Heritage Trail links the residential heart of Clarksville, Indiana, with its growing trail system and two local parks. The trail, which occupies an abandoned Dinky Line railroad corridor donated to the city, begins in the south in Colgate Park, which contains tennis, volleyball and basketball courts, an aquatic center, a playground and picnic shelter.

Extending north from Colgate Park, the trail quickly meets S. Clark Boulevard, where cyclists and pedestrians must share the road with vehicular traffic for a short distance. The off-road route resumes at Harrison Avenue and courses through dense tree cover and past industrial properties until it reaches its northern terminus at the [Clarksville Levee Trail](#). That trail continues north less than 0.25 mile to Midway Park and the wastewater facility

Clarksville Heritage Trail

Indiana
