Alfred J. Lima Quequechan River Rail Trail

Massachusetts

Alfred J. Lima Quequechan River Rail Trail

Massachusetts

The Alfred J. Lima Quequechan River Rail Trail, formerly just the Quequechan River Rail Trail, travels along the northern shore of

underneath Hwy. 195.

The Alfred J. Lima Quequechan River Rail Trail, formerly just the Quequechan River Rail Trail, travels along the northern shore of scenic South Watuppa Pond in Falls River, MA.

About the Route

The trail, first created in 2012, created a ten-foot-wide paved surface with three-foot grass shoulders that run over a former railroad bed and five timber bridges to connect with Britland Park and Rodman Street.

The trail although short, was designed to make Fall River more bikeable, and it does just that. In addition to connecting Britland and Interchange Park with local businesses, it also provides trail users with a safe crossing

Alfred J. Lima Quequechan River Rail Trail

Massachusetts
