WE Energies Trail

Wisconsin

The WE Energies Trail, so named because it uses a Wisconsin Energy Corporation utility corridor for much of its route, links

south from the WE Energies Trail's southern endpoint to 6 Mile Road and turn left. Just past the railroad tracks is the northern trailhead for the [MRK Trail](#), which travels into the heart of Racine.

The WE Energies Trail, so named because it uses a Wisconsin Energy Corporation utility corridor for much of its route, links Racine and Oak Creek in Racine and Milwaukee counties. Despite the presence of power lines, the trail's journey through rolling hills in a strikingly verdant landscape is well worth the trip. The trail is also part of the Route of the Badger, a Milwaukee-area trail network.

The northern end of the trail in Milwaukee County is paved, making it suitable for wheelchairs and inline skaters. In Racine County, the trail switches to a gravel surface, although it is generally packed well enough to accommodate all but the skinniest tire bikes.

To extend your trip, take Douglas Avenue/State Route 32

WE Energies Trail

Wisconsin

States: Wisconsin

Counties: Milwaukee, Racine

Length: 2 miles

Trail end points: 7 Mile Rd, east of Douglas Ave/SR 32 (Racine) to E Elm Rd, east of S Chicago Rd/SR 32 (Oak Creek)
