River Legacy Trail

Texas

River Legacy Park is a 1,300 acre park sitting on both sides of the Trinity River. It serves as a multi-use destination point for picnics,

aquariums and terrariums with native wildlife, and nature trails to name a few.

River Legacy Park is a 1,300 acre park sitting on both sides of the Trinity River. It serves as a multi-use destination point for picnics, walking, biking, and private events. The trail within the park itself is a 8.7-mile concrete paved route that connects to unpaved mountain biking trails of various difficulty levels.

About the Route

The trail follows the path of the Trinity River and is mostly flat making for an easy ride. It is surrounded by plenty of natural forestry and wildlife. There is a stretch of the trail that has no amenities and so it will be wise to bring a good amount of water. Riders bringing their kids may be interested in visiting the River Legacy Living Science Center which features interactive environmental exhibits,
