The Mahomet Village Bike Trail is a safe, paved route that connects all the major parts of the village.

On the north, there are the various and popular facilities of the Lake of the Woods Forest Preserve: the Museum of the Grand Prairie and the [Lake of the Woods Path](#)—besides golfing, fishing, boating, hiking, and picnicking. On the south, there's the large Barber Park, a popular spot for many local events.

There is an elementary school, shopping area, and other village services downtown, and the public library is at the eastern end of the trail. The trail crosses the Sangamon River over a historical bridge built in 1912.
