This is a wonderful trail for nature lovers; a popular birding destination; with abundant alligators and occasional raccoons, otters, and turtles.

The Lake Apopka Loop Trail is 18.4-miles. There's an abundance of nature as well as some background history regarding the lake. Spanning across former farmland along the north shore, Florida's fourth largest lake, once second, is currently a restoration in progress after the soil had been poisoned with pesticides and the city, after buying the land, allowed it to flood.
