Yolo Causeway Bike Path

California

The Yolo Causeway Bike Path follows a portion of the Yolo Causeway, which carries busy Interstate 80 over the Yolo Bypass

The Yolo Causeway Bike Path follows a portion of the Yolo Causeway, which carries busy Interstate 80 over the Yolo Bypass floodplain. Beginning in West Sacramento, the path immediately parallels the highway, making for a loud and windy trip westward towards Davis.

While few consider this trail a dream destination, its utility makes it well-traveled by locals. From the eastern endpoint, continue through West Sacramento on W. Capitol Avenue and then Tower Bridge Gateway to reach Sacramento. Both roads offer bike lanes for at least a portion of their route. In the west, take County Route 32A a short distance to reach the [Old Highway 40 Bike Path](#), which whisks trail users into Davis.

Yolo Causeway Bike Path

California
