Parke Community Rail Trail

Indiana

The Parke Community Rail Trail offers a paved, tree-lined route along the former Pennsylvania Railroad in the western Indiana

The Parke Community Rail Trail offers a paved, tree-lined route along the former Pennsylvania Railroad in the western Indiana community of Rosedale. There is a southern and northern section of trail that are connected by an on-road route through town. When the trail first opened in October 2014, it was the first segment of a larger 26-mile network of connecting rail-trails called the Covered Bridge Gateway Trail.

The northern section of trail heads north until reaching Big Raccoon Creek while the southern section continues until Lambert Ave.

Parke Community Rail Trail

Indiana
