On the east bank, you can pick up the <u>Ulysses Wiggins</u> <u>Waterfront Park Promenade</u> to travel a mile along the river. Both trails are part of the Circuit Trails, a developing regional system of interconnected trails totaling 800 miles.

The historical Ben Franklin Bridge, opened in 1926, offers expansive city skyline views and is itself a stunning structure. The iconic suspension bridge once included two streetcar tracks in addition to vehicle lanes and spans 7,456 feet across the Delaware River.

Pedestrians and bicyclists can use the bridge to travel safely between Philadelphia and Camden on a walkway separated from traffic (the bridge carries I-676/U.S. Route 30). The walkway is open between 6 a.m. and 8 p.m. daily from October through April, and until 9 p.m. the rest of the year.

On the river's west bank, the trail drops you off just steps from Franklin Square in downtown Philly.
