The Paradise Path forms a critical link between the [Latah Trail](#) and [Bill Chipman Palouse Trail](#), two long rail-trails on opposite sides of Moscow, Idaho. Winding within Moscow city limits, the Paradise Path closely follows Paradise Creek for most of its route.

The trail's western end passes through the University of Idaho's campus, making it a useful recreation and active transportation amenity for students, staff and visitors. The trail's eastern end opens up into verdant farmland, but not before a scenic pass through shady Berman Creekside Park, where a beautiful collection of trees and flowers awaits. The park is well-used in the winter, too: a sledding hill and outdoor fireplace welcome visitors of all ages.

Paradise Path

Idaho

States: Idaho
