Emerald Path
North Carolina

Emerald Path

North Carolina

The Emerald Path is an 11-mile multiuse pathway stretching from the Indian Beach town limits all the way to The Point at Bogue Inlet

Connections

The Emerald Path is part of the developing East Coast Greenway, a 3,000-mile route between Florida and Maine.

The Emerald Path is an 11-mile multiuse pathway stretching from the Indian Beach town limits all the way to The Point at Bogue Inlet at the western end of Emerald Isle.

About the Route

The path follows Emerald Drive/NC 58, passing through a diversity of landscapes, including grassy areas, shady woodlands and the heart of downtown. There is a variety of shopping and dining options alongside the trail as well as a grocery store, a pharmacy, and multiple surf shops. Because the island is narrow, and as the pathway sits on its spine, it's possible to view most of the island from there. There are plenty of beach access points no further than a block or two off the path.

Emerald Path
