Brickyard Trail offers a pleasant north-south route through the Town of Brighton, which sits on the southeastern outskirts of

Brickyard Trail offers a pleasant north-south route through the Town of Brighton, which sits on the southeastern outskirts of Rochester. Its name is a nod to the town's brickmaking industry dating back to the late 19th and early 20th centuries, and the trail runs through a former clay mine.

The route begins at the Sandra L. Frankel Nature Park, across from city hall and the library, and winds south through woodlands and wetlands for just shy of a mile. The stone-dust pathway ends at Buckland Park, which offers many recreational amenities, including athletic fields, playgrounds, basketball and tennis courts, and a large picnic pavilion.
