## Grant Creek Trail

Montana

*Thanks to the joint efforts of the city and county of Missoula, as well as other partners, Grant Creek Trail is a reality. The paved trail*

Thanks to the joint efforts of the city and county of Missoula, as well as other partners, Grant Creek Trail is a reality. The paved trail stretches 3.3 miles through a rural landscape of open pastures and woodland. Neighborhoods densify as one travels south. 2 of those miles were constructed by the city with the remaining 1.3 being an initiative of the county. The route followed mostly parallels the roadway of the same name but it does veer away from the road near the south end of the trail (around Prospect Drive). There are number of crossings of both streets and private driveways. The trail terminates where Grant Creek Road meets US-93.

# Grant Creek Trail

*Montana*

**States:** Montana

**Counties:** Missoula

Length: 3.3miles

**Trail end points:** 5705 Grant Creek Rd. to Snow Bowl Rd.

**Trail surfaces:** Asphalt
