The Erica Greif Memorial Bikeway is a multipurpose, off-street path paralleling Veterans Parkway, also known as the Southeast Connector, which connects Reno to Sparks. The walking and biking path was named for Erica Greif, a University of Nevada, Reno student and cycling enthusiast who died in 2015 in a car accident on her way to a California bike race. Sun protection is your friend as there is no shade to obscure the desert sun, but there are benches where folks can rest if they need to.
