Northern Railroad.

The Berkshire Valley Management Area Trail passes through hardwood forests and affords views of the valley below to the right. Equestrians must have a NJ Wildlife Permit, which is available from NJ DEP for a fee.

What is now the trail was once a connector to the Ogden Mine Railroad, which originally terminated at Nolan's Point on Lake Hopatcong from its journey from Edison (formerly Ogden) and the mines. From Nolan's Point, the ore was shipped via boat across Lake Hopatcong to the Morris Canal then shipped to points east.

Following the advent of the railroad, the canal connection became obsolete, and an extension, called the Hopatcong Railroad, was constructed southbound from Nolan's Point to near Lake Junction, connecting with the Wharton and

Berkshire Valley Management Area Trail

New Jersey
