While not a rails to trails project this has got to be one of the most wonderful urban trails in America. Originally set aside as part of open land initiative it is certainly one of the best features of living in Albuquerque. The ride goes along the Rio Grande for approx.16 miles. Passes by the Rio Grande Conservation Center the Albuquerque Bio Park and the Zoo. The only cars you will see are on the occasional bridges that pass over the trail. The trail is pretty much flat the whole way except when passing under those pesky bridges.

# Paseo del Bosque Trail

*New Mexico*

**States:** New Mexico
