The Chambersburg Rail Trail is a 1.6 mile paved urban trail that connects neighborhoods just a few blocks west of the community's

The Chambersburg Rail Trail is a 1.6 mile paved urban trail that connects neighborhoods just a few blocks west of the community's central business district. Starting at South Main Street (Route 11), the trail occupies the center of a boulevard that separates north and southbound lanes of traffic. Stops are required at each of the 7 intersections. At busier street crossings, there is a pedestrian crossing button that activates flashing yellow lights to warn the vehicular traffic that a pedestrian or bicyclist is attempting to cross the street. About midway along the trail there is a wooden trestle bridge that crosses the Conococheague Creek. The paved trail ends at West Commerce Street.

The Chambersburg Rail Trail is part of the [Cumberland Valley Rail Trail](#).

Chambersburg Rail-Trail

Pennsylvania

States: Pennsylvania

Counties: Franklin

Length: 1.6miles

Trail end points: South Main St. to Commerce Ave.

Trail surfaces: Asphalt
