M-Path Trail

Florida

M-Path Trail

Florida

The M-Path is a paved multi-use trail in urban Miami-Dade County, which was opened in 1983 and is part of the Miami-Dade

South. Just north of the latter station (at Kendall Drive), the paved path continues south as the [South Dade Trail](#), all the way to Florida City. The entire route forms a 31-mile corridor.

The M-Path is a paved multi-use trail in urban Miami-Dade County, which was opened in 1983 and is part of the Miami-Dade Transit (MDT) system. The trail follows a MDT right-of-way under the elevated Metrorail guideways.

The M-Path is one of Florida's oldest rail trails built atop a portion of the fabled Florida East Coast Railway (FEC). In 1896 Henry Flagler's railroad reached downtown Miami, and in 1905 he began an extension of the railroad to Key West, completing it 1912.

The M-Path generally follows US 1 (South Dixie Highway) and crosses 28 roadway intersections. The path connects the Metrorail stations of Brickell, Vizcaya, Coconut Grove, Douglas Road, the University of Miami and Dadeland

M-Path Trail

Florida
