The Bear Creek Greenway is an 18.5-mile paved multi-use trail that travels through creek-side woods and natural areas, connecting

The trail is louder in some places where it follows Interstate 5 and State Route 99. Some of the notable parks along the route include Bear Creek Park and U.S. Cellular Park in Medford and a popular dog park just north of the southern terminus in Ashland.

The Bear Creek Greenway is an 18.5-mile paved multi-use trail that travels through creek-side woods and natural areas, connecting five communities and eight parks along its course. The main portion of the trail runs for 17.5 miles from Central Point, through the heart of Medford, to Ashland. A 1-mile section of trail recently opened north of the Jackson County Expo/Fairgrounds. Plans are in the works to join the disconnected trail segments with a path through the Expo property in the near future.

The greenway provides a serene place to exercise, bird watch or simply enjoy a quiet escape to nature. Benches located along the trail offer a place to sit and relax. Walkers, joggers, bicyclists, skaters and wheelchair users are all welcome, and horses are allowed on designated portions in Central Point and Talent.
