Archer Braid Trail

Florida

Overview The Archer Braid Trail runs for over 12 miles between Archer and Gainesville in north-central Florida. About the Route

and offer nice respite from the heat.

The next large chunk of the trail parallels FL 24, although there is a wide berth between the trail and the roadway.

At the intersection of SW 91st St., the trail splits in two directions. The spur trail heads up SW 91st St. and meets Veteran's Memorial Park. The rest of the trail continues north along FL 24 until reaching SW 41st Blvd, although trail users can access the spur trail once again at the intersection of SW 75th St.

Overview

The Archer Braid Trail runs for over 12 miles between Archer and Gainesville in north-central Florida.

About the Route

The Archer Braid Trail is paved along most of its route and offers an 8-10 ft wide flat surface. While most of the route does parallel busy FL 24, the trail features some wooded sections and is known for bright wildflower blooms on the sides of the trail in the springtime.

The small town of Archer anchors the southern end of the route. The southernmost two miles of the trail parallel Archer Rd. and are more wooded than the rest of the route

Archer Braid Trail

Florida
